

Health and Nutrition Policy

Mitr Phol Group recognizes its responsibility to enhance consumer health and nutrition. The company focuses on delivering product information that supports appropriate sugar consumption, as well as improving or developing new products that promote healthier consumption. To meet the diverse needs of health-conscious consumers, Mitr Phol carefully selects a wide range of sugar products that vary in taste and size. We also pay close attention to product attributes to ensure consumers have suitable choices that match their needs with the following guidelines:

1. Mitr Phol Group will focus on developing new innovations and listening to customers and consumers to expand the range of healthier sugar alternatives by:

- Developing low-calorie sugar products, low-glycemic-index (GI) sugar or functional foods as healthier options for consumers.
- Providing a variety of serving sizes and packing types to discourage excessive sugar consumption and support mindful eating habits among consumers.
- Ensuring that consumers across all social and economic groups have access to healthier product alternatives at affordable prices.

2. Promote healthy lifestyles by:

- Providing knowledge and information on appropriate daily sugar intake levels to discourage our sugar products from being over-consumed at unhealthy levels.
- All various marketing communications will accurately represent health and nutrition information, including the characteristics and health implications of the product, and avoid making misleading or unsubstantiated claims.
- Ensuring that any health or nutrition-related claims made by the Group are based on scientific evidence and supported by appropriate research.
- Organizing events that promote health and well-being for both internal and external participants.

3. Continuously build confidence in the safety and quality of products by:

- Encouraging cane farmers to minimize the use of agricultural chemicals, especially ones that are harmful to human health.
- All types of sugar products sold must include a Nutrition Declaration and Supplementary Nutrition Information in accordance with the regulations and requirements of each country. This is to promote transparency and help consumers make informed purchasing decisions.
- Implementing product recall procedure if products are found to be unsafe.
- Comply with health-related laws and regulations, as well as consumer protection laws in the countries where Mitr Phol Group operates.

Mr. Buntoeng Vongkusolkrit

Chairman of Mitr Phol Group
