

## Packaging Policy

Mitr Phol Group is committed to conducting business with a focus on environmental preservation and places importance on the issue of plastic waste, which can have long-term impacts on ecosystems. The Group is dedicated to designing and developing packaging that is safe and environmentally friendly, while also meeting consumer needs, with the following guidelines:

1. Develop technologies for packaging development according to the concept of Circular Economy.
2. Reduce the use of single-use plastic packaging and promote the use of reusable packaging.
3. Promote use of compostable and recyclable packaging for packaging development.
4. Promote use of recycled materials to produce packaging in order to reduce the use of new materials.
